Robert Ferré is a leading figure in the current labyrinth revival. He was a founder of the Labyrinth Society, is president of Labyrinth Enterprises, LLC (having made more than 1,000 labyrinths), and served as editor for the Hermann Kern Compendium on Labyrinths. He has written and lectured extensively on labyrinths, Chartres Cathedral and sacred geometry, and serves as webmaster for one of the Internet’s best sources of labyrinth information: www.labyrinth-enterprises.com. Robert’s energy and knowledge make his trainings both informative and enjoyable.

Facilitator training to include:

- A visual history of labyrinths covering 5,000 years
- The labyrinth revival: Why now? Why labyrinths?
- Contemporary labyrinth designs and uses
- Religious and secular labyrinth traditions
- Conducting public labyrinth events
- Using labyrinths for rituals and ceremonies
- Using labyrinths in public schools
- Labyrinths in hospitals: pathways to inner healing
- The process of getting labyrinths into public venues
- Introduction to sacred geometry
- How to build a temporary labyrinth in 15 minutes
- Important considerations for permanent labyrinths
- Symbolism and meaning in sacred spaces
- Questions and answers

“My two-day intensive facilitator training is designed for people who already know something about labyrinths. I take a rather left-brained stuff-them-full-of-information approach. My training includes such topics as sacred geometry, ritual and ceremony, use in schools and hospitals, and much more. It also offers hands-on experience in learning how to construct labyrinths. Each training is customized for the audience.” Robert Ferré
