**LNN** (Labyrinth Network Northwest)  
is an organization seeking to  
provide programs that enrich the  
experience of the labyrinth as a  
tool for transformation.

This year's quarterly event invites you to both participate in, and learn about presenting ceremony, within the context of the labyrinth. Ceremonies and rituals are a deeply held part of our human experience. Whether you are working with groups or using the labyrinth in your personal practice, you'll gain perspective, ideas and inspiration for using ceremony to add meaning to the transitions of life.

### **Co-presenters**

**Ann Schneider and Paula Hills** both serve on the LNN Planning Circle. Ann, since receiving a BA in Cultural Anthropology has been exploring ways to create personal and community rituals using the arts, particularly dance, and more recently the labyrinth. Paula brings 20 years experience in the practices associated with bringing meaning to life through personal/spiritual growth work, ceremony, body work, feng shui, sound healing, shamanism and the labyrinth.
